

Official/professional photographers and those using 'professional' equipment.

The LRLCGA requires that anyone wishing to take photographic or video images, at any LRLCGA event at which children under the age of 18 are participating, in an official or professional capacity or using 'professional' camera or video equipment registers their details with the LRLCGA Championship Office.

This must be done before carrying out any such activity on the golf course (including the practice ground) or surrounding area or in the clubhouse.

Once registered an identification label will be issued as confirmation of registration. Anyone found using photographic or video equipment without an appropriate identification label will be questioned.

The LRLCGA reserves the right to refuse to grant permission to take photographic or video images if it sees fit.

Photographers must obtain consent from parents to take and use their child's image.

Parents/carers/family members of competitors Parents, carers and family members taking occasional informal photographs with mobile devices of their own child, ward or family member at a LRLCGA event do not need to register their details with the LRLCGA.

If such photographs include other children (e.g. at a prize presentation) they should not be publicly displayed or published on social media unless the prior permission of the parents/carers of all the children in the photographs has been obtained.
